- **Excellent 2:1 Stiffness Ratio**
- **FDA Approved**
- **FSC CoC Mill Available**
- **Multiple Sheeting Locations**
- **Custom Sheet Sizes**
- **Press Ready Skids**

BENEFITS

- Attractive white clay coated top side.
- Excellent clay coated printing surface.
- Light back side for back side printing on folding cartons and carded packaging.
- Stocked in 17.9 pt (350gsm/72#/MSF), 20.1 pt (400gsm/82#/MSF) and 23.2 pt (450gsm/92#/MSF).
- High recycled content. 100% recycled with a minimum 83% post-consumer fiber content.
- Hi-Q carries a renowned reputation for converting and erecting in filling lines worldwide. Recognized for its salability in face-seal carded packaging, single-face corrugated and premium folding carton applications.
- Stiff sheets mean easy die-cutting, scoring, folding and gluing. Stays consistently flat on press, through die-cutting, folding, gluing and gives dimensional squareness in filling lines.
- FDA 176.100, 170 (E, F & G) 3rd-party certified for direct-food-contact.
- FSC® CoC Certified. Please consult your salesperson on minimum order requirements.
- Stocked in sheet rolls in Seattle, San Francisco and Los Angeles. Shared inventories and back-up sheeting capacity so that you can rely on our service performance all the time.
- Our sheet roll inventory allows you to order sheet sizes to the exact dimensions that your job layout requires. No more trim waste and no more paying for unused paper.
- We make our own skids with high quality lumber. Sheets are stacked to the edge of the skid deck so that you can load the paper directly on the printing press, saving time and money.
